

“Back to the Future”

Summary of a talk given by Jacqui Christian
at Bounty-Pitcairn Conference 2012
in Angwin, California, August 21, 2012

What is the future of Pitcairn?

This question has been asked in every documentary made, I think; and I don't have a definite answer either. But what I do know is that we create our own future.

If we as Pitcairners work together with a common vision of creating a future together, if we can get the foreign investment to improve our transport and accessibility and continued helpful marketing from people such as yourselves to show the world that we have a unique, gorgeous, hospitable place out in the blue Pacific worth visiting, then we have a great chance.

And we won't rest until we've given it everything we've got.
